

ROLL-A-RAMP
Where Strength and Flexibility Meet

“Freedom Regained Through Accessibility”

Roll-a-Ramp® is the access solution for wheelchair and scooter users that want access without the cost of a conversion or an expensive chair lift. All ramps are custom built to any length needed. One ramp, many uses.

Strength. Flexibility. Together
At Roll-A-Ramp® we believe that
*“Without access you are
not truly mobile”*

Pictured is the MiniFold™

Strong & Lightweight

- Each 8' section weighs between 26-45 lbs. and supports 1,000 - 2,000 lbs.
- Constructed of aircraft quality anodized aluminum for superior strength.
- Available in 12" Pair, 26" and 30" Wide Options
- Extremely Durable and Unique Construction

Endorsed by Her majesty the Queen.
Seen here in Buckingham Palace.

The Roll-A-Ramp® Platform System™ is a perfect solution for situations where access is needed to homes, RV's, cottages, anywhere a platform would provide accessibility. System is completely custom for each individual's circumstance.

All Roll-A-Ramp® carry a full 10-Year Warranty. We are so confident with the quality of our product we will stand behind it far longer than other ramp products.

No Vehicle Modification

- No conversion or lowered floor needed with the Roll-A-Ramp® install.
- Available in both manual and power options, ramp bifolds for easy storage inside door.
- Affordable alternative to lifts and conversions.

Flexible

- May be used as a roll up portable ramp or as an in-place semi-permanent ramp.
- The link construction allows the ramp length to be changed by simply and quickly adding or subtracting links.

Versatile

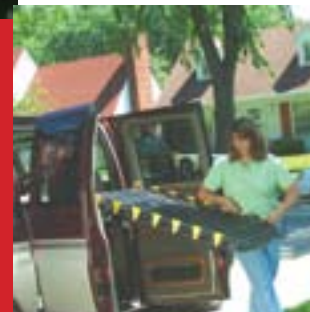

- May be used as a home or vehicle access ramp.
- Travel from home to vehicle to friends with ease.
- Ramps may be separated in smaller sections for ease of handling & transport.
- Ramps available in virtually ANY length -

GET WHAT YOU NEED, NOT WHAT'S AVAILABLE.

Industrial Uses

- Great for use in construction, or for loading anything requiring a ramp.
- Landscapers, Contractors, Rental companies, etc.
- **12" twin pair Roll-A-Ramp® holds up to 2,000 lbs. That's a full ton!**

- Ramp length can be changed by adding links
- Your ramp system never becomes obsolete
- Lifetime ramp system - it changes with your changing needs
- Whether it be for home, traveling, vehicle or whatever the need Roll-A-Ramp® has the solution
